An "LGBTQ+" Massachusetts Ruthlessly Profiteers From Child-Abusive "Pseudo-Science"

I am a white male. I am also a loving and dedicated father of my four dear children. I am not confused as a responsible and hard-working parent. I have no political agenda or a victim mentality. As an educated and emotionally stable professional, I am fully able and capable to stand my ground intellectually.

Therefore, I have a formed and mature internal value system, and **I am certainly not "fluid."** I know (and fully accept and embrace) that I will never become a "pregnant man." I also know that all these "identities" could stereotypically label me with "toxic masculinity," "white supremacy," "misogyny," "racism," etc., in a superficial and cheap (but politically lucrative) Marxist equity-based justice system.

However, I am also a "legal alien" who was allowed to enter the U.S. in 1986 as a political refugee from the then communist Romania. Due to growing up in a ruthless (but racially homogenous) tyranny as a hated minority, I thoroughly lack any "racist" or "supremacist" aspirations. Therefore, I have nothing to do with (nor guilty by any means of) the past "American slavery" and its sinful racial discrimination.

I am forever grateful. The local black community reached out first to provide me with much-needed help and assistance upon my arrival to the U.S. in 1986 (or, unjustly, to the Middlesex County Jail in 2019).

Supreme Court Justice Thomas eloquently characterized this controversy: *"Today's 17-year-olds, after all, did not live through the Jim Crow era, enact or enforce segregation laws, or take any action to oppress or enslave the victims of the past. Whatever their skin color, today's youth simply are not responsible for instituting the segregation of the 20th century, and they do not shoulder the moral debts of their ancestors. Our Nation should not punish today's youth for the sins of the past."* Students for Fair Admissions, Inc. v. President & Fellows of Harvard Coll., No. 20-1199, 93 (U.S. Jun. 29, 2023).

It is also well-known that communism explicitly doesn't distinguish between men and women. Growing up in communism, nobody becomes a "misogynist" (or a follower of the "American patriarchy") simply because "feminism" doesn't exist as a concept (or as an activist aspiration) worth any effort fighting for.

In fact, as proof of my deep and firm belief in the **equality between men and women**, I unconditionally shared, just as I had promised, all the financial fruits of my relentless intellectual labor with the two mothers of my four dear children. As a sole software developer, I sold one of my one-person businesses in 1999 for \$25M and my "future family residence" for \$500K in 2011. I immediately transferred the promised 40% shares (e.g., \$10M) to my now ex-wife and 50% of the proceeds (e.g., \$250K) to my now ex-fiancee, despite them being thoroughly ignorant of (or just incompetent with) software development.

Obscenely preying on the emotionally disturbed and bitter competition for supremacy between the two mothers, unmistakably driven by their irrational and thus intractable "female jealousy" (e.g., a multi-millionaire mother not wanting to spend a penny to support her non-biological children versus a mother needing government assistance while scheming for \$10K/month child support), the Middlesex Family Court decided to **ruthlessly profiteer from deeply child-abusive "pseudo-science" psychology** when openly applying the activist-"feminist"-dictated (but purely Marxist) "equity-based justice" to the cases.

My ex-wife was allegedly molested as a small girl, but I never met her father. My ex-fiancee often had "flashbacks" of her father beating her older brothers bloody, but I only met an old, weak, and thoroughly confused man. Once again, I personally had nothing to do with either of the two mothers' suddenly convenient (but also validly traumatic!) past experiences with misogyny or the "American patriarchy."

Nevertheless, to support an activist (and thus forcefully projected) "feminist" agenda, a notoriously cruel 400 times GAL Harvard psychologist, **a child predator Dr. Robin Deutsch, PhD.**, was brought in to custom fabricate factually false and thoroughly infantile QAnon-style narratives for the Family Court, specifically: "*[child] is afraid the Father will 'put suction cups on her feet and take her out the window,' and [child] is afraid the Father would 'put him in boiling water' if he went back in the Father's care.*"

The "superstar" GAL based her incomplete, faulty, and biased (with my meticulously documented 900+ errors and distortions) investigation on a provocatively administered and defective "psychology test" by a **sex-obsessed postdoc** with an experience of "probably 10" completed evaluations without a license.

The GALs went on to lead the American Psychological Association and "Pediatric Gender Program" at Yale. My forced indignity, hereon caused by systemic discriminations and sustained retaliations by the Attorney General's Office, started with my email: "*Dr. Oleszki, Is your 'Pediatric Gender Program,' in fact, in plain English, **castrating young American boys?** It is well known that the Nazis, as part of their 'emerging eugenics movement,' started with castrating the hated 'inferior' minorities (for clarity, I grew up as a deeply hated minority in a ruthless dictatorship). They moved onto gassing them in masses only after the population and 'scientific community' did not complain nor 'resist' them in any way.*"

After 5+ years of the deliberate conspiracy to silence and enslave this whistleblower, with a forcefully accrued \$340,000+ of court-ordered in-arrears child supports/expenses, this relentless open-source (i.e., unintentionally "free") software developer has submitted 1,600+ compliant job applications. Turning 62 in January (the start of retirement age in the U.S.), it is now clear that these numbers are insurmountable.

The seeming activist-feminist “hatred” by the “first lesbian” and the “first black woman” Massachusetts Governor and Attorney General, respectively, of anything “white” and (therefore toxic) “masculine” is apparent from the loudly discriminating public assistance and “The People's Law Firm” biased advocacy for only those Massachusetts citizens who are provenly loud and vocal about their thus “fluid identities.”

I am painfully familiar with the concept of this chameleon-like “fluidity” of (the then still non-sexual!) identities. Communist tyrannies used it and perfected it. They deliberately constructed their massive informant networks on it. Living in communism, everybody learned to recognize and protect from it.

As the ultimate hypocrisy, President Biden keeps defending the Marxist-Communist equity-based justice: “... *While the Court can render a decision, it cannot change what America stands for... Because the truth is — we all know it: Discrimination still exists in America... This is not a normal Court.*”

Yet, even the most progressive Maureen Dowd (my favorite columnist from the NY Times) loudly complains: “*But the president can't defend Hunter on all his other messes and draw the line at accepting one little girl. **You can't punish her for something she had no choice about.** The Bidens should embrace the life Hunter brought into the world, even if he didn't consider her mother 'the dating type.'*”

Why am I, a whistleblower raised in a vastly different (and explicitly non-racist/non-sexist) culture, while firmly maintaining those never-fluid identities, being forcefully silenced and enslaved (and thus punished into extinction) by a **discriminating “black/female/LGBTQ+” state government**, while also obscenely profiteering on the state level from the vast, apparently unprotected federal taxpayer funds?

Nevertheless, the refusal to investigate the child-predatory profiteering by the activist “elites” (e.g., the GALs colluding with the Family Court and the most prestigious “million-dollar” lawyers/partners in Boston to forcefully extract \$1,000,000+ in “legal fees” with deliberate Rule 60 fraud-on-the-court schemes and substantiated RICO racketeering by the state), combined with obstruction of justice and the coordinated conspiracy to silence and enslave a whistleblower with a deliberately induced and a now **eternally protracted existential employment, health, and housing crisis**, is itself discrimination.

As an almost 62 years old white male legal immigrant (who cannot ever become pregnant) with no criminal or otherwise record, I assert that I belong to all those necessary “protected classes” that form the thus satisfied criteria of all state and federal anti-discrimination statutes (specifically based on race, sex, national origin, and age) relative to an activist “black/female/LGBTQ+” Massachusetts government.

Respectfully,
/s/ Imre Kifor¹, Pro Se

"Health Insurance" To Forcefully Separate Children From Their Loving Parents

Dear Sen. Warren:

(and Dear Chairmen of the US Senate Health and Judiciary Committees):

I am unexpectedly in receipt of your unsolicited October 29, 2020, letter. After sending to the US Senate my 14th public attempt to openly communicate with you about my and my four children's dire "legal" situation and truly alarming, years-long financial and emotional living conditions, see links above, your usual punishments promptly arrived. Just weeks later, the Superior Court swapped the judges in my defamation case; and after an October 14th hearing, it immediately dismissed it, once again based on provably and deliberately false statements by the "million dollar" attorneys from our "Best Law Firms."

Growing up in a communist dictatorship, I learned early to be cognizant that fabricated "high-conflict" agendas are existentially important for politicians. As a mathematician, I can easily point to the unlikely current scenario of dividing our nation precisely into two identical, but never again to be mixed, halves. In my letters, I have pleaded with you to leave our children out of political games. Our future president praised the "brilliance" of BLM, like your "sneaky BLM message" to our toddlers, yet any president refusing to state, "**when it comes to children, all lives matter,**" is the definition of systemic racism.

In your letter you seem to insinuate that I have contacted you about your political agenda, instead of my actual existential problems, played out publicly in your domain. Indeed, I have written to you at length about the past Romanian anti-abortion laws, and their deeply child-abusive consequences. I escaped that country; and based on my experiences, I would never want to see that again. However, I also personally experienced the exact opposite: my dear younger children were born despite our liberal abortion laws.

The child-beating, cruel parents of the mother of my younger children forcefully bullied and threatened my confused and desperate ex-fiancee to abort both of our children. She was afraid of her father, as he had used to beat her older brothers, and she endlessly cried about her mother not wanting to even look at our newborn baby. Her first excitement for becoming pregnant with our daughter also suddenly turned into a raging fear, "**my family will kill me.**" No wonder her story later had to turn into a sinister, "I was raped," endless allegation, and a prime excuse for her greedy attorney to attempt to extract \$163,000.

AFF 000016
ADD 000027

The court refused to give the lying lawyers a penny, and after 3 years of extreme, abusive litigation, the judge also refused to even mention “rape.” While these “women’s issues” are fertile grounds for greedy lawyers and politicians to exploit, as a loving father, I have still maintained my unconditional support for free choice. I promised the mother full financial support for my children, without ever being late by even a day. I also supported her abortions, if she really had to. She repeatedly responded with a “**never.**”

With these life-experiences, I cannot relate to your letter, and to your seeming “activist” provocation of responding in such insensitive manner to my actual, documented, and dire existential problems. I am also discouraged to witness respected national leaders shamelessly bashing a highly qualified, highly intelligent, while also a clearly loving, and dedicated true mother, in the name of “activist feminism.” In that greedy “political” context, your immense hatred for “toxic” masculinity/fatherhood is unsurprising.

Without repeating my often told tragedy, entirely about women bashing, shaming and destroying each other, the ignored in-arrears child supports have now reached \$175,000. And chances for any income are purely non-existent with all the caustic and gridlocked lawsuits in the Family, District, Superior, and Appeals courts (see the latest attached to the email). As the core of the intractable conflicts arises from the Family Court blatantly covering for the deeply child-predatory “activisms” of **Drs. Robin Deutsch, Ronni Goldsmith, Julia Brice**, etc., with absolute no regard for basic constitutional and human rights, I will continue my perhaps naive layman struggles to defend a loving father’s civil rights in federal court.

In a wide-ranging effort to quickly silence this loving father by all means, the Family Court forcefully appointed an ARC attorney to conveniently deliver needed blatant lies about my “relationships” with my children. Using the “trusted” statements exclusively, the court then cruelly forced words into my mouth, and ordered me to simply forget about my children. As I would never give up my children, the number of my innocent attempts to contact them has **reached 660** since that sadistic and fraudulent court order.

Knowing full well that I have absolutely no assets nor wealth of any kind, as 13+ affidavits of indigency have been accepted by the various Mass. courts and the federal district court, the court is still continually refusing to reconsider its orders about health insurance. While Mass. requires mandatory insurance, and provides no-cost insurance for the needy, it still would not insure my children as long as they had other insurance. Applying for health insurance without my children would however finally close the Family Court’s cruel trap on this loving father: it would be a much needed proof of me abandoning my children.

Growing up in communism, with the often talked about “free” healthcare, I came to the US when I was 24 with 7 of my teeth already extracted. It was not my fault, as anyone could recognize “communists” by their teeth, exactly because of the “free” care. Over the years I diligently spent almost \$100,000 on restoring my dental health. I have many implants and, as attached in my email, they are getting infected from the **forced** neglect. As a 59 yo father, I have not been able to see a doctor, of any kind, since 2017.

On the verge of losing even my health, I still resist your “feminism” and **will not abandon my children.**

Respectfully,
/s/ Imre Kifor¹, Pro Se

Imre Kifor

Acton, MA 01720-4815

Dear Imre:

Thank you for contacting me about the passing of Justice Ruth Bader Ginsburg and President Trump's nomination of Judge Amy Coney Barrett to the Supreme Court.

Justice Ginsburg was a role model for millions of women and young girls and a personal hero of mine. Justice Ginsburg's groundbreaking work as an advocate for justice and equality led to a distinguished career as a federal judge and a Supreme Court Justice. Her wit, tenaciousness, and skill as a jurist made her an icon. Through her lifelong dedication to fighting for justice for all and her love for our nation, she set an example for us to follow. She will be sorely missed.

President Trump and Senator McConnell rammed through a Supreme Court nominee who could roll back many of the rights Justice Ginsburg spent her career defending. Republicans moved at breakneck speed to confirm Trump's nominee, Amy Coney Barrett, to the Supreme Court, despite the fact that we are days away from an election, and millions of Americans have already cast their ballots.

So much is at stake. Senator McConnell and the Senate Republicans have imposed their extremist agenda on the nation's highest court, and the consequences could be staggering. President Trump promised to appoint Supreme Court justices who would overturn *Roe v. Wade* - the landmark Supreme Court case that protects a woman's right to abortion care - and end the Affordable Care Act. Now that Judge Barrett has been confirmed, health care for millions of Americans and the rights of all women to make their own decisions about their bodies is at risk. Judge Barrett's confirmation also puts numerous other rights and protections in jeopardy, including workers' rights, voting rights, and efforts to fight climate change. That's why I opposed Judge Barrett's nomination.

Thank you for contacting me about this critical issue. Please do not hesitate to reach out to me again regarding this, or any other issue of importance to you.

Sincerely,

Elizabeth Warren
United States Senator

[REDACTED]

I seem to have developed a significant problem with my teeth. They have chipped and split and the roots have gotten exposed. From that unfortunate infection my other implants have gotten infected as well, seemingly in the bone itself. I am experiencing serious headaches and swelling in my jaw. I will need at least some antibiotics. Perhaps nothing more, at least until I file my upcoming lawsuits.

I don't believe that I can go much longer without seeing a doctor. I have no money and no insurance. I have asked you both to cooperate back in January, so that I could get the free health insurance. But, **I would never give up my children in the process**. If you are inclined to consider solving this, please let me know. Otherwise I will file emergency complaints regarding the health insurance aspects of the court-orders.
